

United Way

Volunteer Budget Coaching

Get financially fit this year.

You'll work one-on-one with a United Way Volunteer Budget Coach to set and meet your financial goals during a four-month period. **This program is offered at no cost to participants.**

Throughout the program, you'll:

- Track expenses to create and follow a budget
- Identify ways to tackle expenses and prioritize spending
- Make an action plan to pay bills on time, reduce debt and save

"I met with Steve twice a month for four months. We figured out when I could make payments, how to pay off my debt and set up a savings account. Now, I am making ends meet because of the help I received from my coach."
— Summer Spellman, a United Way Volunteer Budget Coaching participant

Applications due by March 21, 2017
