September 8, 2021

Dear Union Brothers and Sisters,

On behalf of the Connecticut AFL-CIO, I would like to thank all of you who help those in need in our community by supporting the United Way Community Campaign.

In partnership with Connecticut United Ways and Central Labor Councils across the state, we continue to make a difference in the lives of our families, friends and neighbors.

United Way is built for tackling the immediate and long-term effects of COVID, which has brought unprecedented human and economic loss to our community. By utilizing the strength of the United Way network and community, they respond to challenging problems, so opportunities continue to be available for children to succeed academically, families to be healthy and financially secure and for basic needs to be met.

The success of the United Way Campaign requires our individual and collective support. If you have a campaign in your workplace, please encourage them to launch a United Way campaign this year.

Like us, the United Way understands the importance of bringing people together, uniting for the common good, ensuring that basic human needs are met, and building stronger communities where we live and work. As partners we can continue to create results that matter for children and working families. By working together with United Way, we can all LIVE UNITED and help respond, recover, reimagine, and rebuild a better normal.

I hope you will support the United Way Campaign in your workplace, because your contribution is part of the labor movement's best tradition – helping those who need it most.

In Solidarity,

Sal Luciano
