THE VALUE OF UNITED WAY

Our communities, region and world look different than anyone could have imagined a few years ago. It is no exaggeration to say that the most vulnerable - anyone who was barely getting by before - is struggling now more than ever.

United Way is stepping up to respond, as we have for nearly 100 years. We are ensuring that people's immediate needs are met while also finding solutions to long-term challenges. Our mission is to engage and bring together people and resources committed to the well-being of children and families in our community.

Together, we can help children succeed academically and families achieve financial security. Together, we can make life better for those who need support the most right now and ensure equitable outcomes for all.
